No closets only wardrobe. Stairs have strip of carpeting down middle a bit worn over stair edges. Hall have carpet practically will to wall but not quite rooms.

A voyage in an icebreaker is a stimulus of the spirit. As Beaufort Island baffled her way along, I saw more of the Antarctic coast line than I had imagined in my most enthusiastic dreams. I can imagine no more productive means of a coast exploration in Antarcchica than to give such a ship a free hand for the whole summer season. In 16 days she had baffled her way through 16 miles of solid ice, to a St. Nicholas, McMurdo Sound. The rest of para is above in article.
